DETAILED ACTION

Examiner's Amendment

1. Authorization for this Examiner's Amendment was given in a telephone interview with Mr. Arthur S. Rose on 8/15/05.

2. The Application has been amended as follows:

Claims 32-48, 53-54, 56-67 and 84-95 are canceled.

Allowable Subject Matter

3. Claims 1-26, 29-31 and 73-83 are allowed.

Reasons For Allowance

4. The following is an examiner's statement of reasons for allowance: The present invention is directed to a system or method for creating aerial messages using a plurality of aircraft, the system comprising a logic and processing unit configured to provide a user interface for creating aerial messages using a plurality of aircraft, wherein the logic and processing unit is located in a master aircraft and sends data to and receives data from a master controller. The combination of the closest prior art, Preiser (US 5,992,065), Le et al. (US 5,670,856) shows a similar system, however, they fail to teach a plurality of slave controllers, each slave controller designed to be located in one of a plurality of slave aircraft, wherein each of the slave controllers is a node on the wireless LAN and is configured to receive data from and transmit data to the master controller as claims 1, 29 and 73; or receiving status data at the computer from each of the plurality of controllers, the status data indicating whether the vapor puff was emitted by each of the plurality of aircraft as claim 19.

Art Unit: 2677

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
